

# Getting started with Messenger Kids

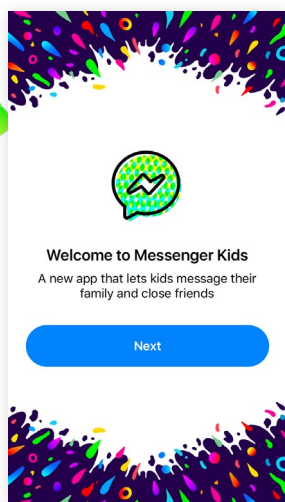

You can get started with Messenger Kids in four easy steps. Your child doesn't need a phone number to sign up.

1

## Download the App

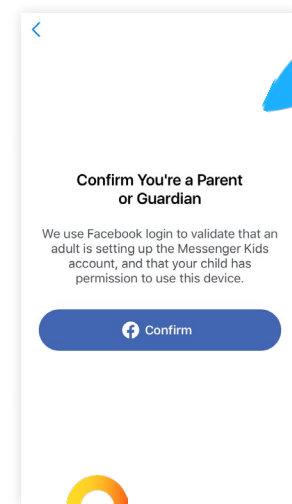

Download the Messenger Kids app to your child's phone or tablet. You can find it on the Google Play Store, Apple App Store, or Amazon App Store.

2

## Authorize Child's Device

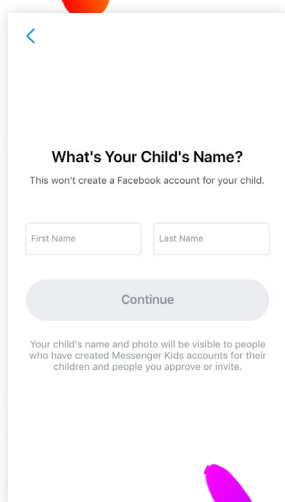

Authenticate your child's device using your Facebook login. If you forgot your password, you can opt to receive a temporary password. *Please note this won't create a Facebook account for your child.*

3

## Create an Account

Create an account for your child by adding their name and other details. After you finish, your child can take a photo and choose a color to decorate the app.

4

## Customize Parental Controls

You can manage your child's account and customize controls from the Parent Dashboard in your Facebook app.
